# The story that changes everything

OPEN BOOK is a project aimed at increasing Biblical Literacy by immersing people into the Big Story of Scripture, and its relevance and impact on Christian Schooling. It consists of 4 one-hour long PD sessions for teachers and staff in Christian schools. This training day is for those who are nominated by their school to champion and run this PD for their staff, so that they can learn how to create a day that no one will ever forget. The training will be running across Australia, and will be facilitated by Dr Brian Harris and Jon Bergmann of Vose Seminary. Each PD day will run from 9:30 - 4:00 and includes morning tea and lunch.
